

HB 2457

Value the Work. Raise the Wage.

We must continue to move the Direct Support Professional (DSP) workforce out of crisis.

The 2021 Legislature made a historic investment in services to people with intellectual and developmental disabilities (I/DD) and for the first time the I/DD system was FULLY FUNDED. Even though this investment allowed us to increase wages for DSPs by \$1.25 an hour (current average reimbursement wage for DSPs at \$17.81), providers still report an average DSP vacancy rate of 23%.

Additional increases in wages are needed to address the current workforce shortage. Per a recent ORA survey, 85% of providers are no longer accepting referrals to serve new people and 86% have reduced capacity or closed services and anticipate closing additional services.

ABOUT DSPs: Direct Support Professionals (DSPs) provide crucial supports to adults and children experiencing intellectual and developmental disabilities. Their work includes managing medical needs, challenging behaviors, personal hygiene, and support to maintain employment and make real connections in the community. These incredibly dedicated individuals are not state employees, rather they work for small and medium non-profits and entities that provide community based services across Oregon. While not state employees, their wages (via I/DD rates) are funded almost entirely by state and federally matched funds.

Protect your investment and continue fully funding I/DD rates while prioritizing DSPs!

In 2023 we must continue to increase DSP wages by supporting HB 2457!

HB 2457 will make two critical long-term investments in Direct Support Professionals:

1. Moves average DSP wage to 150% of the Portland metro minimum wage to recognize the value of the DSP workforce- that this is not a minimum wage workforce. Also ensures this essential workforce receives an annual increase above minimum wage.
2. Covers the costs of employer AND employee contributions for Paid Family & Medical Leave to ensure every dollar directed toward DSP wages stay as wages and supports new recruitment and retention opportunities.

HB 2457

**Value the Work.
Raise the Wage.**

ODDS POP 132 - Targeted Rate Increase
Includes wage inflation and rate increases that bring DSP wages in payment category 1 to \$19.36, payment category 2 to \$20.38, and to \$22.42 in payment category 4 in the first year of the biennium. Increases the health insurance assumption to \$628.45 (currently \$525) per employee per month and adds the 0.4% employer family and medical leave payroll tax pick-up.

\$162M

The Math:
 General Fund: \$162,144,945
 Federal Funds: \$294,067,672
 Total Funds: \$456,212,617

HB 2457 - 150% of Minimum Wage + 1% Paid Leave Pick-up
This bill will make further investments into DSP wages - because DSP work is not minimum wage work! HB 2457 statutorily sets DSP wages at 150% of the metro minimum wage and includes the full 1% Paid Leave pick up (.04% Employer + .06% Employee pick-up).

\$116.9M

The Math:
 General Fund: \$116,913,261
 Federal Funds: \$215,343,792
 Total Funds: \$324,349,246

What do these investments mean for DSP wages?

Total GF Investment: \$279M
